Overview of GPM™ General Security Assessment Content and Control Statements

General Facility Information:

Identifies general information about the existing and make-up of the in-house security group or program as well as any threat, risk, impact and consequence assessment(s) in place for the facility.

Physical Security Protections - Facility:

Identifies existing physical security protections and potential vulnerabilities for security program components such as fencing, access control, mechanical key locks and others.

Information System(s) Network - Physical Security:

Identifies existing physical security protections and potential vulnerabilities which have specifically been applied to the facility's information system network hardware and individual or stand alone components.

Security Support Functions:

Identifies existing human element functions such as the existence, management, training and direction of on-site security officers.

Administrative Security:

Identifies existing formal (written and published) policy and procedural direction in place for security and employee guidance.

Document Security:

Identifies existing practices and potential vulnerabilities respecting the confidential and primarily hard copy information belonging to the organization.

Organizational Security:

Identifies existing hiring and termination procedures followed by the organization and any potential vulnerabilities or liabilities that may exist.

GPM GLOBAL PROTECTIVE™
MANAGEMENT INC
Providing Global Security Solutions

1 Comprehensive Knowledge Base - Pre-loaded with hundreds of detailed questions and control statements. Control statements provide additional information and assist in maintaining consistency in reporting results.

Fully customizable, or you can use our quick import feature to bring in your questions from MS Excel or text format.

2 Complete Assessment
Enter the assessment data on your laptop, desktop, or hand held device...even print paper forms for data entry.

Supplemental file feature allows links to external documents (spreadsheets, word processing, web files) from any assessment question to support the assessment.

3 Follow Up - An integrated module automatically creates follow-up actions as you complete your assessments and inspections.

Assign priority to your follow-up, create automatic email "reminders" using revolutionary 3-tiered process, and track the item to completion.

4 Print Reports - Assessment reports are instantly available for printing, graphing and electronic distribution. Nine system reports include detailed assessment, graphical summary, follow-up action, trend, general summary, and non-compliance.

SecureAssess™ also exports your assessment data to various formats including HTML, MS Excel and MS Word.

Assessment records are automatically created and stored - proof of your standard of due diligence.

Assessment scores and compliance achievement results calculate instantly.

Fast, easy, and flexible. Reduce assessment time by 50 to 75%.

SecureAssess™

Security Software Solutions

5 Export to Hand Held

Hand held portability! No more clip boards or paper! Export your assessment template to your Palm OS PDA or Pocket PC!

Conduct your assessment, then synchronize back to the SecureAssess™ system for reporting and editing. The ultimate in flexibility!
