High-Rise Physical Security Assessment Overview

Global Protective Management™ introduces its High-Rise Building security assessment module. This module is comprised of 419 questions specifically designed to assist Property Management Companies, Facility Managers, Property Owners and Security Consultants to evaluate the level and nature of protections and vulnerabilities which exist in their buildings. The module provides selectable compliance levels for each area of building operation and affords users the capability to use the standardized question set as is, or modify it to address individual property and building features and needs.

SecureAssess™ for buildings, protection for tenants and property. Global Protective Management introduces the SecureAssess™ High-Rise Building security vulnerability assessment process you have been waiting for. The catastrophic events of September 2001 identified the need for building owners, real estate and property management companies to review the security and safety of their properties and buildings. The SecureAssess™ High-Rise Building security module facilitates the completion of consistent security assessments which can be conducted in reduced time frames using consistent reporting and measurable compliance formats.

This process affords a 50% to 75% saving in time over standard methods.

GPM GLOBAL PROTECTIVE™
MANAGEMENT INC
Providing Global Security Solutions

1 Comprehensive Knowledge Base - Pre-loaded with hundreds of detailed questions and control statements. Control statements provide additional information and assist in maintaining consistency in reporting results.

Fully customizable, or you can use our quick import feature to bring in your questions from MS Excel or text format.

2 Complete Assessment
Enter the assessment data on your laptop, desktop, or hand held device...even print paper forms for data entry.

Supplemental file feature allows links to external documents (spreadsheets, word processing, web files) from any assessment question to support the assessment.

3 Follow Up - An integrated module automatically creates follow-up actions as you complete your assessments and inspections.

Assign priority to your follow-up, create automatic email "reminders" using revolutionary 3-tiered process, and track the item to completion.

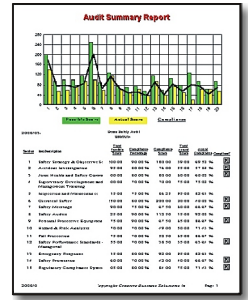

4 Print Reports - Assessment reports are instantly available for printing, graphing and electronic distribution. Nine system reports include detailed assessment, graphical summary, follow-up action, trend, general summary, and non-compliance.

SecureAssess™ also exports your assessment data to various formats including HTML, MS Excel and MS Word.

Assessment records are automatically created and stored - proof of your standard of due diligence.

Assessment scores and compliance achievement results calculate instantly.

Fast, easy, and flexible. Reduce assessment time by 50 to 75%.

SecureAssess™
